TMPC
STRATEGY & SECURITY

SERVICE FACTSHEET

Data Security Audit

A systematic, periodic examination of how your data is handled, stored, and protected, by your organization and by your vendors, with a clear remediation plan at the end.

What we examine

- Data handling, storage, and protection practices
- Adherence to internal policy and regulatory requirements
- Data flows between your organization and vendors
- Logging, segmentation, and privileged access

Vendor compliance

- Checks against ISO 27001, SOC 2, HIPAA, PCI-DSS, and other applicable frameworks
- Validation that contracted controls are in place
- Interviews, policy reviews, and technical tests

What you receive

- Prioritized findings with clear risk descriptions
- An action plan: contract language, access reviews, encryption, logging
- Inputs for your insider threat and vendor programs

Why TMPC

- ISO/IEC 27001:2022 and ISO 9001:2015 certified
- Cleared staff who also run insider threat and UAM operations
- Cybersecurity and RMF experience across DoW programs

How TMPC helps

Our team brings more than 30 years of combined insider threat experience and the proprietary processes built from it. For 8 years, TMPC has delivered continuous counter-insider threat and user activity monitoring support to a DoW (DoD) customer, work that drove that program to a #1 ranking among 24 DoW components by DCSA and DIA.
